About Company

Ubik Solutions is an innovation-led group of companies based in India with a dedicated focus on dermatology and cosmetology. The organization is led by Mr. Ilesh Khakhkhar, who is an enthusiastic entrepreneur, and a visionary leader. With the philosophy of 'Innovation in whatever we do', the group continues to create long-term value for its clients across the globe.

Driven by constant research and development, Ubik Solutions pursues exponential growth while adhering to ethics and its core values. With new technologies and new ways to beautify the world, Ubik continues to launch innovative solutions in response to the genuine requirements expressed by clients to make new trends in the dermatology and cosmetology industry.

Founder & Managing Director of UBIK Solutions Pvt. Ltd.

Hi! Let me introduce myself! I am Ilesh Khakhkhar, the founder of one of the fastest-growing cosmeceutical organizations in India, Ubik Solutions.

Ubik is the way to fulfill my vision of leaving this world a better place than I found. It all started back in 2003 when I launched my first pharma company Ethicare Remedies with just 3 products. I did not belong to a wealthy family, and the odds of my company becoming a success were against me. But my passion to give something new and innovative to the world didn't let me sleep.

For more than two decades, I fully submerged myself in the dermatology industry. As I wanted to change the face of cosmetology and dermatology, I kept on taking chances and gradually expanded my business by launching new Subsidiary companies are Ethicare Remedies, Ethinext Pharma, Ethiall Remedies, Ubiexito, Brand You, iDoc Solutions, iDoc Academy, PostAdda App. and My derma store.

From a very young age, I had the natural ability to encourage everyone I meet with a positive spirit and it helped me connect with people easily. By regularly launching state of art products and services in response to the genuine needs expressed by clients, I have been able to make new trends in the dermatology industry.

I can proudly say that I am working on my vision by doing what I am passionate about. I am grateful that I get to work with industry experts and hope to hear from you as well.

Core values

Our Core Values – that drives everything we do or don't do...

CORE VALUES

- Always **keep evolving** - Learn something new every day and apply it.
- **Provide value first** through ideas, Input tools, and insights.
- UBIK is the synonym of '**World-Class**'. Operate like it in everything you do.
- **Help** colleagues and clients and do whatever it takes to support them.
- We do the **right things at all times**. We act with honesty, accountability & transparency. We are committed to being **open, transparent & honest** in all our activities.
- Don't make excuses, **make it happen**.
- We **accomplish everything together**. We work smart, we work hard, we work towards our vision and we do it as one team.
- Don't think outside of the box. **Think like there is no box**.
- Treat everyone you interact with as if they are **your favourite family member**.
- Showing up with **positivity, high energy, and laughing** is not an option, It's a requirement.
- We are **solution driven**. We believe in **risk taking** and developing more leaders. We attract quality people including customers and employees.

- **Speed, flexibility, and punctuality** are our strengths. Embrace them with grace.
- **Everything is your fault.**
- Entertain, educate, execute but more importantly **empower**.

We are determined to make UBIK Solutions Pvt Ltd., the best place to work, where everyone feels fulfilled with the work they do. They feel like they are contributing towards the larger cause. We are determined to build a place where work does not feel like work, but we enjoy doing it. And each member of the team has pride as they are true Ethicarian and they consider it as if it's their own organisation.

This is only possible through a culture where everyone is consistently demonstrating and living by the core values.

Towards that effort, here I have enlisted our core values and what they mean to us in real sense along with the examples from our day-to-day life. It will help you take decisions speedily which ultimately leads towards a better company and better human beings in the process.

I am sure you must be enthusiastic to live by our core values; demonstrating them every day through your actions, emotions, decisions, and behaviour.

You are well aware that our core values aren't just the words engraved on the wall for the sake of display. They are engraved in the behaviour of each one of us. **Most of you know that our company might compromise on skills or expertise as can be developed BUT core values – A Big NO!**

Needless to say, our core values are reflected in our actions subconsciously. However, they can only reach to our subconscious if we are practising them consciously. So, the question is – where and how we can practise them consciously? Here we have enlisted the examples where you can demonstrate each of our core values.

“Always keep evolving - Learn something new every day and apply it.”

What does this core value mean...

We continuously seek growth and improvement. We learn something new every day, whether it's a skill, knowledge, or perspective, and actively apply it to enhance our personal and professional development. It helps us build a culture of adaptability, innovation, and progress within the company.

Why it is important...

In this rapidly changing world, stagnation leads to obsolescence. Continuous learning and adaptation are essential for us to stay relevant and competitive. By embracing a mindset of ongoing growth and evolution, we will be able to innovate, and navigate challenges effectively, ultimately driving success.

Where I can demonstrate this in my everyday life...

- The first thing I do in the morning is the first demonstration of this core value. That is, learning a new lesson through our UBIK Connect app, every single day, before starting it and executing the lessons learned in the morning the same day. Also, reflecting on it before end of the day while reporting.
- While I am with my seniors, I can learn from their experience and knowledge through proactively asking questions and observing the things and then discussing what I observed with them in a meaningful way.
- While I am waiting in doctor's waiting area, I can learn through observation. Observation of what is happening around me, observing how the clinic is, what is the scope of improvement, how doctor's staff is performing their duties, how other companies MRs are behaving, and so on.
- While I am doing chemist survey or while interacting with them.
- While I am attending conferences.

- While I am attending monthly, quarterly or annual meetings.
 - While I am interacting with other pharma company MRs or managers through proactively asking meaningful questions in tactful manner. And observing, noting down their answers.
 - While I am talking with the doctor's receptionist.
 - While I am observing the patients in the waiting area.
 - While I am teaching or imparting my knowledge to others or while I am creating my videos/audios for teaching other Ethicarians.
 - While I am interacting with Doctors/Clients.
-

Provide value first through ideas, Input tools, and insights.

What does this core value mean...

We provide value to others before expecting anything in return. We actively sharing ideas, input tools, and insights to help others succeed, whether they are colleagues, clients, or partners. This helps us strengthen relationships, foster innovation, and ultimately contribute to collective growth and success.

Why it is important...

By providing value first, we establish trust and credibility, which are essential for building strong relationships. And

needless to say, the joy of giving and providing value first is an incomparable joy in itself. As we all are firm believer of making space in opposite person's heart.

Where I can demonstrate this in my everyday life...

- While I am interacting with the doctors and in each call I do.
- In my day-to-day life with family, colleagues and friends.
- While I am interacting with my colleagues or seniors.
- While doing chemist calls.
- During our meetings by suggesting ideas and by helping colleagues.
- Through our UBIK Connect app by liking and commenting and observing ideas and passing on the ideas to team.
- Proactivity helping PG & Budding doctors to establish their practice
- While getting associate with new doctors
- While getting important doctor's appointment from receptionist.

UBIK is the synonym of 'World-Class'. Operate like it in everything you do.

What does this core value mean...

This core value suggests that we strive for excellence in all aspects of operation. We strive for the highest standards of

performance and professionalism in every task and interaction. We consistently deliver exceptional quality, innovation, and service, reflecting a commitment to excellence and continuous improvement in all endeavours.

Why it is important...

This core value helps us establish a reputation for excellence in the industry. This commitment to excellence not only enhances the organization's competitiveness but also fosters trust and loyalty among doctors, partners, and stakeholders, ultimately leading to sustained success and growth.

Where I can demonstrate this in my everyday life...

- When I am sharing anything with the doctors – be it ideas, tools or inputs, my thoughts or words, products, or services. It must be world-class.
- When doing any work for clients including greetings on their important days
- Even while doing daily chores work.
- When I am stepping out of my home, I dress like world-class MR.
- When I am interacting with others – the words I use are world-class.
- While I am posting something on Facebook, Whatsapp or any social media, it has to be world-class.
- When I am giving ideas, those are world-class.

- When I am treating others around me – my family, friends, colleagues, seniors; my behaviour and words should be world-class.
 - When I am giving product demo or presentation – it has to be world-class.
-

Help colleagues and clients and do whatever it takes to support them.

What does this core value mean...

We are committed to actively help both colleagues and clients, regardless of the challenges or obstacles they face. We are attentive to their needs, offering assistance, guidance, and resources whenever necessary, and being willing to go the extra mile to ensure their success.

Why it is important...

By prioritizing the needs of colleagues and clients and being willing to do whatever it takes to assist them, we can contribute to a positive work environment built on trust and teamwork. This, in turn, enhances productivity, strengthens relationships, and ultimately leads to greater satisfaction.

Where I can demonstrate this in my everyday life...

- When I see doctors facing challenges or having problems in their practice, personal life or at clinic.
 - When someone asks for help I give priority to that over other things and go out of my way to help considering all legal and moral terms.
 - When I am attending meetings, events, or conferences, I give my supporting hand and I help wherever I can.
 - When I am with my family, I help them with whatever I can.
 - When I see anyone around me struggling.
 - When my junior, senior, colleague or MD asks for a helping hand.
 - When any doctor's staff or patient seeking help.
 - When my friends or neighbours require my help.
 - I don't wait for someone to ask me for my help; I am proactive in offering help.
-

We do the right things at all times. We act with honesty, accountability & transparency. We are committed to being open, transparent & honest in all our activities.

What does this core value mean...

We are committed to integrity and ethical behaviour in all actions and decisions. We do what is morally and ethically right, even when faced with difficult choices or pressures. We act with honesty, accountability, and transparency. We are sincere in communication, taking responsibility for one's actions, and ensuring that all activities are conducted openly

and ethically, without hidden agendas or untrustworthy practices.

Why it is important...

This value is crucial because it establishes trust and credibility, both internally and externally. By consistently doing the right things with honesty, accountability, and transparency, we can build a reputation for integrity and ethical conduct. This fosters stronger relationships with everyone, including colleagues, doctors, and industry, leading to increased loyalty, collaboration, and long-term success.

Where I can demonstrate this in my everyday life...

- I never do false reporting.
- I never lie to my seniors, or MD.
- I never do anything unethical – be it offering products or services.
- I never ever be dishonest or do things that aren't morally right with doctors or clients.
- I never hide my mistakes – I am open, vocal and learn from them.
- I am open and honest with my family and friends.
- I never demand anything that isn't right.
- I never share ideas, inputs or tools with any of our competitors.
- I never do wrong things, and never allow other persons to do wrong things.

- I am transparent, while settling the accounts of chemist, stockist and our clients.

Don't make excuses, make it happen.

What does this core value mean...

We take responsibility and accountability for achieving goals and overcoming obstacles. We refrain from offering excuses or justifications for why something cannot be done and instead focus on finding solutions and taking action to make things happen. We have developed proactive and determined mindset, driving us to take ownership of tasks and responsibilities, and to persistently pursue success despite challenges or setbacks.

Why it is important...

This value helps us not only accelerate progress towards goals but also cultivate a sense of ownership and pride in our work.

Where I can demonstrate this in my everyday life...

- In my call average, I make it happen as per expected.
- In coverage of all the doctors and areas.
- While scheduling calls with doctors.

- In getting appointment of tough doctors I don't make any excuses.
- While doctors ask for my help – with products or services, I make it happen.
- While my colleagues ask me for my help, I don't make any excuses.
- While I am performing my duties.
- While dealing with chemists to make products available.
- While fulfilling my targets, I make it happen anyhow.
- While I am doing FRED activities.
- While executing any new project or new input.
- While participating in any competition
- While helping my friends and family

We accomplish everything together. We work smart, we work hard, we work towards our vision and we do it as one team.

What does this core value mean...

Success is not achieved by an individual but through combined effort, intelligence, and dedication. Working smart and hard towards a shared vision as one cohesive team means leveraging each member's strengths, supporting one another, and aligning efforts towards common objectives to realize the UBIK's overarching vision.

Why it is important...

We understand that our collective efforts are greater than the sum of individual contributions. Working as a team strengthens bonds between team members, enhances communication and collaboration, and drives everyone towards achieving their goals with greater effectiveness and success.

Where I can demonstrate this in my everyday life...

- While I am taking care of other states doctors who have travelled in my territory for vacation, medical emergency, conference, etc.
- While supplying medicine to a patient in my territory, prescribed by other state doctors.
- While accomplishing our VIVID VISION 2026.
- While doing other state doctors work in my territory.
- While I am assigned any team targets.
- While I am stepping into a new territory, area.
- While I am trying to get a new client.
- While I am launching a new product, service or offerings
- While I am doing FRED activities.

Don't think outside of the box. Think like there is no box.

What does this core value mean...

We work with a mindset of limitless possibilities and creativity. Rather than confining our thinking to traditional boundaries or limitations (represented by the metaphorical "box"), we are empowered to approach problems and challenges with openness, innovation, and originality. We are known for breaking free from conventional thinking and exploring unconventional solutions and perspectives to achieve extraordinary results.

Why it is important...

Only when we are allowed to think and act like there is no box; we are able to explore the unknown. Growth and creativity thrive when we walk on unexplored paths.

Where I can demonstrate this in my everyday life...

- While doing FRED activities for our clients.
- While marketing our products or services to our clients.
- While sharing my ideas with clients for their growth.
- While I am on my way to achieve targets.
- While giving demo or presentations to doctors.
- While celebrating special days of our clients and family.

Treat everyone you interact with as if they are your favourite family member.

What does this core value mean...

We treating everyone with respect, and empathy, regardless of their position or status. We extend the same level of respect and consideration to everyone we encounter as we would to our favourite family member. We promote a mindset of compassion, understanding, and positive regard in all interactions, fostering stronger relationships and a more supportive and inclusive environment.

Why it is important...

This core value helps us create a positive work environment where everyone feels valued, respected, and supported, ultimately leading to greater morale, productivity, and overall success.

Where I can demonstrate this in my everyday life...

- While I meet and interact with doctors.
- While I interact with doctor's receptionist or other staff members.
- While I interact with any patient in the waiting area of doctor.
- While I interact with chemists.
- While I interact with our MD.
- While I interact with my colleagues.
- While I am interacting with our client's family member.

- While I am interacting with my friends and neighbours.

Showing up with positivity, high energy, and laughing is not an option, It's a requirement.

What does this core value mean...

We approach situations with enthusiasm and optimism, understanding that our demeanour can have a significant impact on the overall environment and interactions within or outside our company.

Why it is important...

How we approach people or situations matter a lot because it affects the outcome. If we approach individuals with positive mindset, then the relationship will thrive. And if we approach a situation with positive mindset, then we can win the situation no matter how challenging it is.

Where I can demonstrate this in my everyday life...

- While doing any doctor's call, I show up with positivity and high energy.
- While I interact with doctors, I talk positively.
- While doing presentation of new products or new inputs.
- While interacting with receptionist or doctor's staff.
- While attending our meetings.

- While interacting with my colleagues.
 - While interacting with family, friends.
 - While interacting with anyone for the first time; as first impression matters
 - While interacting with patients in waiting area of doctor.
 - While interacting with other pharma people.
-

We are solution driven. We believe in risk taking and developing more leaders. We attract quality people including customers and employees.

What does this core value mean...

We believe in developing more leaders. We are committed to seeking solutions rather than dwelling on problems, taking calculated risks to drive progress and growth, and empowering each member to take on leadership roles. We only attract and retaining like-minded individuals, both clients and employees, who share UBIK's values and contribute to its success.

Why it is important...

It ensures a continuous influx of talent, both internally and externally, driving sustained growth and excellence.

Where I can demonstrate this in my everyday life...

- While sorting out any issue.
 - During meetings and other discussions and taking decisions.
 - While getting new clients.
 - While interviewing new candidates.
 - While dealing with my juniors or welcoming new-comers of our family.
-

Speed, flexibility, and punctuality are our strengths. Embrace them with grace.

What does this core value mean...

We are known for our ability to act swiftly, adapt to changing circumstances, and adhere to deadlines. We are committed to delivering results promptly, responding effectively to challenges, and maintaining a high standard of punctuality in all endeavours.

Why it is important...

Speed allows us to stay competitive by quickly seizing opportunities and responding to market changes. Flexibility enables us to adapt to evolving circumstances, innovate, and meet diverse needs effectively. Punctuality ensures reliability, professionalism, and trustworthiness in fulfilling

commitments to clients. These strengths enhance our efficiency, productivity, and reputation.

Where I can demonstrate this in my everyday life...

- During my daily doctors' visits.
- While making products available to doctors or pharmacists.
- While I have made a commitment to anyone.
- While performing any task given by our seniors.
- While assisting to any doctor.
- While performing unexpected task in very short time.
- While completing assignment given by HO.
- While completing our UBIK connect post and questionnaire.

Everything is your fault.

What does this core value mean...

We take full responsibility of our actions, decisions, and outcomes, regardless of external factors or circumstances. We don't blame each other.

Why it is important...

We believe everything is our fault because only a solution-driven mindset helps us overcome challenges and problems. By giving more energy to finding solutions, rather than problems; we succeed.

Where I can demonstrate this in my everyday life...

- While I get any complaint from a doctor or a client.
- While I am unable to fulfil any commitment or task.
- While dealing or communicating with juniors or MD.
- While dealing with doctors or clients.
- While I am in a heated argument with anyone.
- While having disputes or differences of opinion with anyone inside or outside work.
- While dealing with my spouse, family members & friends.

Entertain, educate, execute but more importantly empower.

What does this core value mean...

We promote a culture of optimism, vitality, and enjoyment in the workplace, contributing to a more vibrant, supportive, and enjoyable environment for all. But more importantly, we believe in empowering others above all.

Why it is important...

One can only succeed by helping others succeed. That is possible when we maintain a friendly and supportive environment.

Where I can demonstrate this in my everyday life...

- While meeting anyone in the field.
- While doing doctor's call.
- While welcoming and giving training to a new member in UBIK.
- While executing any project by understanding that doctor's win is our win.
- While interacting with doctor's receptionist or staff members.
- While interacting with other pharma company people.

If you have ticked a 'yes' against each of these – Congratulations! You are a perfect example of how one can demonstrate our core values. However, there is always a room for improvement. Keep learning, keep demonstrating and keep empowering others to do the same.

In a nutshell these values become our life mantra we live by and it becomes us. So no efforts are needed to behave and decide and do anything for this rather this becomes our identity and makes us happy fulfilled and Swift in decisions and behaviour...

FOUNDER FEELING

“I make decisions based on principles & values I believe in”

“I wake up every morning and think to myself, How far can I push my company forward in the next 24 hours.”

I am incredibly grateful to have been born and raised in a middle-class family that instilled in me the values of ethics and integrity. I have carried these values with me throughout my life, and they have helped me make clear and decisive decisions that align with my beliefs. For me, it's all about putting **PEOPLE FIRST**.

My life's mantra is **continuous learning, growth, evolution, and transformation**. I firmly believe in encouraging those around me to do the same. Every day, without fail, I ensure that I learn something new through books, videos, and attending various workshops, mastermind groups, and conferences.

I wholeheartedly practice the **strategy of preeminence**, going above and beyond to help the people around me, whether they're my clients, friends, family, or other individuals in my life. Through powerful delegation, empowerment, and implementing various systems, I have created an environment where my presence is not essential to run and grow my organization. This has allowed me to give quality time to my family, which is of utmost importance to me.

Teambuilding and growth are a lifelong journey that I prioritize. My key people are always at my disposal, and I communicate with them frequently on crucial aspects in a meaningful way. I am in the best health of my life, and I am grateful to have your participation and cooperation in this exciting and challenging journey. It has brought out the best in us, and I am excited to see what the future holds.

I'm ready for this exciting journey... Are you???

Always hungry...

ILES H KHAKHKHAR

CO-FOUNDER FEELING

“My hustle with either offend or inspire you.”

I am a down-to-earth girl who values goodness and kindness, which I inherited from my parents. I married an ambitious and highly intellectual man who shared these same values. After 9 years of marriage, we started our own business, 'Ethicare Remedies', with a mission to make the world a more beautiful place through innovation.

Every day, I wake up with gratitude for being a part of this beautiful mission. I commit myself to **taking steps forward, learning new lessons, and adopting changes to uplift my skills and knowledge**. As I achieve my dreams, I empower every person associated with me to achieve their dreams too.

Healthy habits are a priority in our company, extending to our families and loved ones, generating a sense of well-being across the company.

My self-driven and motivated team gives me creative time to explore new ideas that propel our growth. We believe in responsible freedom, where every individual is accountable for their work, giving me the assurance that work will never suffer in my absence.

The UBIK is eternally grateful, happy, and ever-evolving. We are determined to make a difference in elevating every person associated with us, making their lives better and beautiful. I lead with love & care.

Lead with love and step into success...

Executive Director At Ubik Solutions

Mr. Ajay Vanjani

I assist Ilesh sir and getting work done from all other team members in head quarter. I am handling all doctors' projects and communicating with entire India's seniors. I am working with Ethicare since 2013. Any new project of doctors or company – I am in action, idea execution is my core work. You can contact me for any requirement related to promotional inputs like visual aid, visiting card, brochure or any doctor's special projects.

Executive Director Ubik Solutions

Mr. Kuldip Vaghela

I have been associated with Ethicare Remedies Since 2006. Ethicare is like second home for me. I am handling international business & products development part. I look after each and every aspects of the company. I am handling quality control, packaging development, international exhibitions and conferences and communicating with all exporters and importers. Meeting special needs of company and field staff is my duty.

About Subsidiary Company

1) Ethicare, Ethiall, Ethinext, Ubikexito

Ethicare Remedies

A comprehensive division specializing in innovative products that addresses hair and skin concerns, ranging from acne treatment to skin lightening, brightening, anti-aging, hair growth, etc. All these products are trusted and prescribed by dermatologist to deliver the best results to their patients.

Ethinext Pharma

A specialized division dedicated that provides pharmaceutical solution that includes therapeutic drug molecules that are backed by research, science and clinical efficacy. These are only prescribed by doctors targeting variety of disorders like ranging from fungal infections, antibacterial concerns, to hair growth issues. It also includes nutraceutical products to address the common hair and skin concerns.

Ethiall Remedies

A niche segment with high end products & unique product categories like peeling solutions, hair masks, sunscreen sticks with high-tech molecules along with aesthetic packaging to beat the growing market segment in hair and skin care industry to deliver high efficacious results.

UbiExito

A dedicated division developed only for dermatologist and their benefits. This division is available only with the doctors and in their pharmacies. These products are not available online, in medical stores, in chemist or any stockists. This range has high end products with high end packaging with new technologies backed by science.

Brand You

What is Brand You?

How would you feel if you were able to prescribe products having YOUR UNIQUE BRAND NAME?

You will feel amazing, right? The feeling of ownership on the label is fabulous!

This is where we enter the picture to assist you: We BrandYou!

BrandYou is our distinguished Private Brand-Label Project for YOU!

We offer a wide range of SKIN CARE PRODUCTS which are a quality outcome of exhaustive research and expert guidance. We craft products with unique formulae backed by finest technology, and reviewed by renowned Dermatologists. You prescribe these superior products in a brand name of your choice structured by us.

What Does BrandYou Provide?

As a clinical practitioner, you prescribe products to your patients every day – but all are of different brands that are offered in the market.

Now, how about prescribing them a product which has your brand label on it?

Not some pharma company, but your **Own Label** with your own symbol, mark, logo, name, word, sentence or a combination of these items!

BrandYou provides you a private label with the name of your choice on the products you prescribe.

As a Dermatologist, Aesthetician, Skin Care Professional, or a Health Care Practitioner, you specify everything about the top quality product we manufacture –and pay to have it branded and delivered to your doorstep.

We provide 9 categories to our User (Dermatologist & Cosmetologist)

- 1) Skin care products
- 2) Hair care products
- 3) Skin lightening & brightening
- 4) Face wash
- 5) Serum
- 6) Moisturizer
- 7) Sunscreen
- 8) Cream & gel

FAQ'S

1. Why Private Labeling?

It has many obvious benefits such as

Strong Brand building

Trust & Customer Loyalty

Competitive Advantage

2. Which services do you provide under BRAND YOU?

BRAND YOU provides core service of private labeling and apart from it, we also provide designing of brochure for your selected products, presentation, banner designing and other value added services.

3. How do I place my order?

To place an order, you can go to the inquiry page and fill up the required details asked in form and we will contact you for the same.

4. Do you accept emergency/contingent orders? Is there any extra cost for it?

It is advisable that you plan well in advance for your order; so that you always have enough stock at your end. But, situations may arise where you need to place rush orders. We'll try our best to accommodate as per your urgent requirement.

5. Do you help your clients to get product approval from FDA?

Yes, on selecting your product portfolio; and after placing your order; we'll get approval for the same from FDA on your behalf. Hence, you will be always free from the hustle of documentation & procedures.

6. Do you supply only labels?

Unfortunately, we do not provide only designed labels. Client must choose certain product from available range. And we'll provide labeling for the selected products only.

7. Once ordered, how much time will it take to receive our order?

Generally, at first order, it may take 60-65 working days as approval from FDA would require. Repeat product order will only take 30-35 working days.

8. Do you provide your services in other countries?

Currently, we are focused on Indian derma fraternity. But, we are planning well to expand our wings to cater international market.

Export

- 2) We sent bulk WhatsApp message to past and existing user regarding offers
- 3) We also guide our existing doctors about how and what to post and give them a road-map to increase visibility on social media platforms

FAQ'S

What is iDoc Solutions?

iDoc Solutions is a specialized marketing consulting service focused on helping Dermatologists' practice. We are here to find the core issues of valuing and servicing your patients and devising a strategic and creative marketing plan to get more patients through your front door.

Our consulting and coaching approach gives you practical and personal skills to win over your existing patients and acquire new patients. Our creative and design expertise will implement a comprehensive marketing solution for your practice. Knowing how to correctly and compassionately treat your patients means more monthly revenue.

How is iDoc Solutions different from other consultants?

We take time to understand your needs. We also understand that no two offices are alike and we get to work innovatively in a quick way so that results can be achieved quickly. Unlike others, we don't just deliver a bullet point list and promise to call weekly for a check-up.

Our ideas and strategies are provided with a step-by-step implementation plan. We take care of design work, printing, and the

whole marketing development plan,so everything gets executed easily for your clinical development. Our approach is hands-on and we get the job done. We believe that time is money and iDoc Solutions is the right investment for your business.

Why is creative marketing so important for my practice?

The competition is fierce. Many healthcare practitioners are branching out and offering these cash expanded services. Additionally, the patients of today, especially aesthetic patients, demand a great deal for their time and money. They want to be treated with care and attention.

How do you distinguish your practice and services so that patients choose you over the competitor down the street? The secret is how to effectively deliver your marketing message so that patients can give you a chance to help them.

Who leads iDoc Solutions?

iDoc Solutions is lead by Mr. IleshKhakhkhar, the founder and owner of iDoc Solutions, having 13 plus years of experience in marketing and entrepreneurship. He has leadership experience for both the corporate and private sector. He has vision to bring revolutionary change in the dermatology industry by his wisdom. He has been always busy to do best for dermatology industry and now he has his own methodology & tools which can help dermatology practitioners in various ways.

How will Doctors know that iDoc Solutions is helping their practice?

What you get here, you won't get there or anywhere else. You will see the improvement as you will work smarter and work happier. You'll be less stressed knowing that your staff can assist you in providing the best patient experience. You'll see more patients and more monthly profit & also you will find it's helpful in your goal achievement process.

How iDoc Solutions will be helpful to build customer relationships in your daily practice?

With the right marketing strategy in place, patients will know about most or all of the dermatology options that you offer even before they are taken back into the exam room. The proper coaching will give you the skills necessary to effectively communicate your message to patients with care and compassion. Take-home reading materials handed to the patients by you further extends their knowledge of all that you can do to treat their concerns.

What are the guarantees?

iDoc Solutions gives guarantee that we will work for your satisfaction. Our objective is to improve your business by providing you marketing, branding, staff training, time management and other management terms in which we are expert. We also need you and your staff's co-ordination to achieve your professional or business goals.

Should I choose iDocSolutions to help me with marketing?

The question is - are you ready to increase your bottom line? Marketing can be accomplished in a professional and tasteful way to promote your services and products.

How do I get started?

It is very simply, you can sign-up by filling in few details & once we review your received details, you will get confirmation mail & you will be ready to use our services.

What should I do if I need any personal assistance in any of my practice issues?

Contact us through our mail ID or client care helpline number to get started. Before we start we need to go through identification of business requirement process and have to work out on that. For that we will ask you several online questions for practice assessment and you can fill it and submit us. We also encourage you to read our terms & conditions and privacy policy to understand our security terms. Your private data will only be used for your business analysis purpose.

Mission

Our mission is to challenge the status quo to the conventional learning process and form new convenient ways with the new-age technologies.

Vision

Our Vision is to create one unique platform where faculties and delegates can easily connect with each other and spread the wings of derma segment.

What user expect from us

- High-Quality, Comprehensive Content
- Variety of Course Offerings
- Seamless Download Process
- Affordable Education

Marketing Activity

- We're actively developing a user-friendly website that showcases our unique offerings and renowned faculty.
- We're running targeted social media ad campaigns on Instagram to reach the dermatologists and plastic surgeons who need us most.
- Our team is optimizing our website and content for key search terms, making it easier for potential students to find us when they're searching for the knowledge they need.

- To make our Dermatologists & Plastic Surgeons stay in the loop! We also send exclusive announcements about new course launches and special offers directly to their phone through WhatsApp Broadcast.

FAQ'S

FAQ 1: Who can enroll in iDoc Academy courses?

iDoc Academy courses are designed for dermatologists and Plastic surgeons looking to elevate their practice. Whether you're a seasoned professional or just starting out, we offer a variety of courses to fit your needs and skill level.

FAQ 2: How much does it cost to enroll in a course?

We offer individual course pricing, making it easy to choose the programs that are most relevant to you. You can find the specific price listed for each course on our website.

FAQ 3: What payment methods do you accept?

We accept all major credit cards for secure and convenient online payment processing.

FAQ 4: How can I register myself in IDOC Academy?

To register yourself for the iDoc Academy, simply go to the sign up section, fill in your details manually or register with your Facebook or Google account and you are registered with the iDoc Academy.

FAQ 5: How long will I have access to a course after I enroll?

Once you enroll in an iDoc Academy course, you'll enjoy yearly access to all the materials. Learn at your own pace and revisit the content whenever you need a refresher in a year.

FAQ 6: What is the level of difficulty of the courses?

We offer courses at various difficulty levels, from beginner-friendly introductions to advanced techniques for experienced professionals. Be sure to check the course description for specific details.

FAQ 7: How often do you add new courses?

We're constantly innovating and adding new courses to our library. Stay updated by following us on social media.

FAQ 8: Can I see a sample lesson or syllabus before I enroll?

We understand wanting to see what you're getting before you commit. Absolutely! Many courses offer free teaser videos or introductory modules to give you a taste of the content and teaching style of the instructor.

FAQ 9: What technical requirements do I need to access the courses?

To access iDoc Academy courses, you'll need a computer or mobile device with a reliable internet connection and a modern web browser.

FAQ 10: Who are the instructors for the courses?

We partner with a distinguished faculty of renowned dermatologists and Plastic surgeons. Each instructor is chosen for their extensive experience, expertise in their field, and ability to share their knowledge in an engaging way. You'll find detailed profiles of our faculty members on our website.

FAQ 11: Can I interact with the instructors if I have questions?

While we don't offer live Q&A sessions within the courses themselves, our instructors are committed to your learning success. Many courses include discussion forums where you can post questions and connect with other students. Additionally, our support team is always happy to answer your inquiries.

FAQ 12: Is there a certificate of completion for courses?

Yes! Upon successful completion of a course, you'll receive a certificate of completion that you can download and add to your professional portfolio.

About Owner

USER'S MANUAL

ILESH KHAKHKHAR (IK)

FEATURES

1 STRATEGIC

The strategic theme enables him to sort through the clutter and find the best route. This perspective allows him to see patterns where others simply see complexity. Mindful of these patterns he plays out alternative scenarios. This allows him to see around the next corner. He makes selections until he arrives at the chosen path.

2. INPUT

He collects information & knowledge-words, facts, books, tools, with an intention to use it for his own life and his business. Whatever he collects, he collects it with the intention to modify in accordance to the benefit of his own & his near & dear ones. He reads a great deal not only to add more information to his archives but to refine his theories. He likes to travel because each new location offers novel artifacts and facts.

3. COMMUNICATIONS

He likes to explain, to describe, to host, to speak in public and to write. This is his communication style. For him ideas are a dry beginning. He needs to bring them to life to energize them to make them exciting and vivid. He is transparent in his communications and actions. what he thinks, he speaks, what he speaks, he does.

4. LEADERSHIP

He has excellent leadership skills through which he connects with each and everybody and empower them. Empower and influence people around him with his wisdom, knowledge, skills and make this world a better place to live. Also, he is a vulnerable leader/coach sometimes. He always sees through the viewpoint of the opposite person. He puts on his foot in the opposite person's shoes to understand the situation.

5. COMMAND

Command leads him to take charge. Unlike some people he feels no discomfort with imposing his views on others. On the contrary, once his opinion is formed, he needs to share it with others. Once his goal is set, he feels restless until he has aligned others with him.

6. ACTIVATOR

He is impatient for action. He may concede that analysis has its uses or that debate and discussion can occasionally yield some valuable insights, but deep

down he knows that only action is real. Only action can make things happen. Only action leads to performance. Only actions can impress him, words cannot. Once a decision is made, he cannot not act. He is not going to seat around waiting until all the lights have turned green.

7. MAXIMIZER

His inventive mind usually generates more possibilities than he can handle. What he already knows prompts him to ask questions and delve even deeper into a subject or problem. He trusts easily but once somebody loses trust then it is impossible for the person to regain trust.

8. EVALUATOR

He has the ability to notice, evaluate and analyse the value and different usages of any idea/input/tool with different perspectives. He always wears the spectacles of '360-dimension' to evaluate from different perspectives and doing a 360-degree analysis. In short, he makes out on how to use any tool/idea in its best way possible very quickly.

9. LIGHT-HEARTED

He is open to all sorts of pranks, mimicry, spoofs and entertaining acts on him. He often encourages people by adding anecdotes and more jokes to make atmosphere more entertaining and happier. He never gets irritated and disappointed by such fun activities. In fact, he often connects movie dialogues and movie scenes to lighten the mood.

10. RISK-TAKER

He has a trait of taking unbelievable risks and that too instantaneously.

The anecdotes of this ability of his and his risks are very popular

amongst the people who he works with. He calculates the

consequences very quickly that whether this decision of taking risk is

beneficial or not. This makes him a wise entrepreneur.

11. RECIPROCATE

He believes in the rule of Reciprocity. He is a true giver. He believes in providing resources without being asked by the opposite person. In fact, he never expects to get the same amount of benefit in return. With this impeccable quality, he influences everyone.

12. INSTANTANEOUS

His response rate is too high to cope up. Whenever anyone asks him or tells him anything, a well-analysed and precise answer comes back in no-time. This is because of his experience and his constant learning and sharpening his skills. He has passed through every kind of situations and events and he has worked with every kind of people that he can respond to anything correctly in a short span of time.

Marketing Activity

- 4) Whenever we add any content, we notify them. So that they download our creatives and use credits.
- 5) We run Meta campaigns to get new user
- 6) We sent bulk WhatsApp message to past and existing user regarding festive offer
- 7) We create a monthly social media calendar that includes suggestions for the types of posts to share throughout the month. Additionally, we provide powerful hashtags and tips on topics such as paid ads. From a marketing standpoint, we distribute this calendar to each user (past and current), along

with advertisements for our application showcasing the features we offer.

FAQ'S

FAQ 1: What services do you offer?

Answer: We provide a comprehensive suite of services tailored for dermatologists and cosmetologists, including skincare and haircare treatment templates, procedural guides, and content for special occasions and festivals, all designed to enhance your social media presence.

FAQ 2: How do I use the templates provided on the app?

Answer: Our templates are easy to use! Simply download the app, choose a template that fits your needs, customize it with your specific information or promotions, and share it directly to your social media pages.

FAQ 3: Is there a free trial available?

Answer: Yes, we offer a free trial to all new users. This trial allows you to access 10 credits, but with our watermark and a limited selection of our templates and features, for a period of time before committing to a subscription plan.

FAQ 5: Can I cancel my subscription at any time?

Answer: Yes, you can cancel your subscription at any time.

FAQ 6: How often are new templates added?

Answer: We update our template library regularly with new and seasonal content. New templates are added monthly to ensure you have fresh and relevant content to engage your audience.

FAQ 7: Are the templates customizable?

Answer: Absolutely! Our templates are designed to be fully customizable. You can add your logo, change colors, modify text, and also add shapes according to your needs.

FAQ 8: What kind of support do you offer?

Answer: We provide customer support through Call, email and WhatsApp chat. Our dedicated team is available to help you with any questions or issues you may encounter.

FAQ 09: How does your app help improve my social media engagement?

Answer: Our app helps you consistently post high-quality, professional-looking content that resonates with your audience. By maintaining a strong and visually appealing online presence, you can increase engagement, attract more clients, and build your brand.
